EAGLE, Idaho--(BUSINESS WIRE)-- Lamb Weston Holdings, Inc. (NYSE: LW) announced today its first quarter 2018 results.

"Our strong start to the year reflects a good balance of sales growth, supply chain productivity and cost discipline," said Tom Werner, President and CEO. "Through our commitment to serving our customers and our focus on execution across the company, we continued to drive volume gains, improve price/mix and expand product contribution margins. We expect the operating environment to remain generally favorable during fiscal 2018, with solid demand for frozen potato products globally and tight manufacturing capacity. In the coming months, we expect to start up our new production line in Richland, Washington, which will enable us to continue to support our customers' growth. As a result, we remain on track to deliver on our full-year targets and are encouraged by our steady progress as an independent company."

Summary of First Quarter FY 2018 Results

(\$ in millions, except per share)

	Q1 2018	Year-Over-Year Growth Rates
Net sales	\$ 817.5	5%
Income from operations	\$ 137.6	10%
Net income attributable to Lamb Weston	\$ 83.4	5%
Diluted EPS	\$ 0.56	4%
Adjusted EBITDA including unconsolidated joint ventures ⁽¹⁾	\$ 191.4	11%
Adjusted Diluted EPS ⁽¹⁾	\$ 0.57	(2%)

Q1 2018 Commentary

Net sales were \$817.5 million, up 5 percent versus the year-ago period. Price/mix increased 3 percent due to pricing actions and favorable product and customer mix. Volume increased 2 percent, with growth across all business segments.

Income from operations rose 10 percent to \$137.6 million from the prior year period and included \$2.2 million of costs related to the spinoff from Conagra Brands, Inc. (formerly ConAgra Foods, Inc., "Conagra"). A portion of the increase reflects the impact of \$9.7 million of expenses incurred in the prior year period related to the spinoff from Conagra. Excluding these comparability items, income from operations grew \$5.1 million, driven by favorable price/mix and higher volume, partially offset by cost inflation, as well as higher selling, general and administrative expense associated with incremental costs for being a stand-alone public company.

Adjusted EBITDA including unconsolidated joint ventures⁽¹⁾ was \$191.4 million, up 11 percent versus the prior year, reflecting higher equity method investment earnings as well as growth in income from operations.

Diluted EPS increased to \$0.56 from \$0.54 in the prior year period. The increase was primarily driven by growth in income from

operations, higher equity method investment earnings and lower income tax expense. The increase was partially offset by higher interest costs related to debt incurred in connection with the spinoff. Adjusted Diluted EPS⁽¹⁾ was \$0.57, down from \$0.58 in the prior year period. The modest decline was primarily driven by higher interest costs and selling, general and administrative expenses, which were largely offset by higher gross profit, higher equity method investment earnings and lower income tax expense.

The effective tax rate⁽²⁾ was 33 percent in the first quarter of fiscal 2018, versus 38 percent in the prior year period.

Q1 2018 Segment Highlights

Global

Global Segment Summary

	Q1 2018	Year-Over-Year		
		Growth Rates	Price/Mix	Volume
	<i>(\$ in mil.)</i>			
Net Sales	\$ 413.9	4%	3%	1%
Segment Product Contribution Margin ⁽¹⁾	\$ 74.7	1%		

Net sales for the Global segment, which is comprised of the top 100 North American based restaurant chain customers as well as the Company's international business, increased 4 percent to \$413.9 million. Price/mix increased 3 percent, largely reflecting price increases and improvement in customer and product mix. Volume increased 1 percent, driven by domestic market growth.

Global Segment Product Contribution Margin⁽¹⁾ increased 1 percent to \$74.7 million, with favorable price/mix and volume gains largely offset by commodity, manufacturing, transportation and warehousing cost inflation.

Foodservice

Foodservice Segment Summary

	Q1 2018	Year-Over-Year		
		Growth Rates	Price/Mix	Volume
	<i>(\$ in mil.)</i>			
Net Sales	\$ 279.4	7%	6%	1%
Segment Product Contribution Margin ⁽¹⁾	\$ 90.9	14%		

Net sales for the Foodservice segment, which services North American foodservice distributors and restaurant chains outside the top 100 North American based restaurant chain customers, increased 7 percent to \$279.4 million. Price/mix increased 6 percent, reflecting the carryover effect of pricing actions taken in fiscal year 2017, pricing actions implemented in the current quarter, and improvement in customer and product mix. Volume increased 1 percent, driven by broad-based growth across the segment's customer base.

Foodservice Segment Product Contribution Margin⁽¹⁾ increased 14 percent to \$90.9 million, primarily driven by favorable price/mix, partially offset by commodity, manufacturing, transportation and warehousing cost inflation.

Retail

Retail Segment Summary

	Q1 2018	Year-Over-Year		
		Growth Rates	Price/Mix	Volume
	<i>(\$ in mil.)</i>			
Net Sales	\$ 92.0	3%	(6%)	9%
Segment Product Contribution Margin ⁽¹⁾	\$ 16.5	(16%)		

Net sales for the Retail segment, which includes sales of branded and private label products to grocery, mass merchant and club

customers in North America, increased 3 percent to \$92.0 million. Volume increased 9 percent, primarily driven by the introduction of *Grown in Idaho* branded products as well as growth of private label products. Price/mix declined 6 percent, largely due to higher trade spending in support of *Grown in Idaho*.

Retail Segment Product Contribution Margin⁽¹⁾ declined 16 percent to \$16.5 million, mainly due to higher trade spending as well as transportation and warehousing cost inflation.

Equity Method Investment Earnings

Equity method investment earnings from unconsolidated joint ventures were \$20.0 million, an increase of \$9.4 million from the prior year period, as favorable price/mix and cost savings initiatives more than offset the impacts of higher raw potato costs in Europe. In addition, this increase includes a \$3.4 million unrealized gain related to mark-to-market adjustments associated with currency hedging contracts.

Outlook

The Company provides earnings guidance on a non-GAAP basis and does not reconcile guidance to GAAP as the Company cannot predict certain elements that are included in reported GAAP results, including costs related to the spinoff from Conagra and other items impacting comparability.

The Company reaffirmed its outlook for fiscal year 2018 as follows:

FY 2018 Outlook Summary	
Net sales growth rate	Low-to-Mid Single Digits
Adjusted EBITDA including unconsolidated joint ventures ⁽¹⁾	\$740-\$760 million
Interest expense	\$105-110 million
Effective tax rate ⁽²⁾	33% to 34%
Cash used for capital expenditures	Approximately \$225 million

As summarized in the table above, the Company continues to expect:

- Net sales to grow low-to-mid single digits, with price/mix and volume growth improving in the second half of fiscal 2018 as new pricing structures for an increasing number of customer contracts become effective and as the Company's new processing capacity becomes available.
- Adjusted EBITDA including unconsolidated joint ventures⁽¹⁾ in the range of \$740 million to \$760 million, including higher selling, general and administrative expenses as a percentage of sales due to the full-year impact of incremental costs associated with being a stand-alone public company, as well as higher advertising and promotional expense in support of the introduction of the Company's *Grown in Idaho* product line in retail. Using the mid-point of the range, this represents an increase of approximately 8 percent versus a fiscal 2017 pro forma Adjusted EBITDA including unconsolidated joint ventures⁽¹⁾ of \$692 million.

In addition, the Company continues to expect:

- Total interest expense to be in the range of \$105 million to \$110 million, which is an increase of approximately \$45 million to \$50 million from fiscal 2017 due to the full-year impact of the Company's capital structure after the spinoff from Conagra.
- An effective tax rate⁽²⁾ in the range of 33 to 34 percent.
- Cash used for capital expenditures of approximately \$225 million, with the majority spent in the first half of the fiscal year as the Company completes the construction of an additional production line at its Richland, Washington facility.

End Notes

- (1) Adjusted EBITDA including unconsolidated joint ventures, pro forma Adjusted EBITDA including unconsolidated joint ventures, Adjusted Income from Operations, Adjusted Diluted EPS, pro forma Adjusted Diluted EPS and Segment Product Contribution Margin are non-GAAP financial measures. Please see the discussion of non-GAAP financial measures and the reconciliations at the end of this press release for more information. Pro forma Adjusted EBITDA including unconsolidated joint ventures includes \$15.0 million for a full year of stand-alone public company costs.
- (2) The effective tax rate is calculated as the ratio of income tax expense to pre-tax income, inclusive of equity method investment earnings.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Readers of this press release should understand that these statements are not guarantees of performance or results. Many factors could affect the Company's actual financial results and cause them to vary materially from the expectations contained in the forward-looking statements, including those set forth in this press release. These risks and uncertainties include, among other things: the Company's ability to successfully execute its long-term value creation strategy; the competitive environment and related conditions in the markets in which it operates; political and economic conditions of the countries in which it conducts business and other factors related to its international operations; disruption of its access to export mechanisms; its ability to complete proposed acquisitions or integrate acquired businesses or execute on large capital projects; its future debt levels; the availability and prices of raw materials; changes in its relationships with its growers or significant customers; the success of its joint ventures; actions of governments and regulatory factors affecting its businesses or joint ventures; the ultimate outcome of litigation or any product recalls; levels of pension, labor and people-related expenses; its ability to pay regular quarterly cash dividends and the amounts and timing of any future dividends; and other risks described in the Company's reports filed from time to time with the Securities and Exchange Commission. The Company cautions readers not to place undue reliance on any forward-looking statements included in this press release, which speak only as of the date of this press release. The Company undertakes no responsibility for updating these statements, except as required by law.

Non-GAAP Financial Measures

To supplement the financial information included in this press release, the Company has presented Adjusted Income from Operations, Adjusted EBITDA including unconsolidated joint ventures, pro forma Adjusted EBITDA including unconsolidated joint ventures, Adjusted Diluted EPS, pro forma Adjusted Diluted EPS and Segment Product Contribution Margin, each of which is considered a non-GAAP financial measure. The non-GAAP financial measures provided should be viewed in addition to, and not as an alternative for, financial measures prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") that are presented in this press release. The non-GAAP financial measures presented may differ from similarly titled non-GAAP financial measures presented by other companies, and other companies may not define these non-GAAP financial measures the same way. These measures are not substitutes for their comparable GAAP financial measures, such as net income, diluted earnings per share, or other measures prescribed by GAAP, and there are limitations to using non-GAAP financial measures.

Management uses these non-GAAP financial measures to assist in comparing the Company's performance on a consistent basis for purposes of business decision making by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations. Management believes that presenting these non-GAAP financial measures provide investors with useful information because they (i) provide meaningful supplemental information regarding financial performance by excluding certain items, (ii) permit investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate historical performance, and (iii) otherwise provide supplemental information that may be useful to investors in evaluating the Company's results. The Company believes that the presentation of these non-GAAP financial measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures,

provides investors with additional understanding of the factors and trends affecting the Company's business than could be obtained absent these disclosures.

(2) Adjusted EBITDA including unconsolidated joint ventures is a non-GAAP financial measure. Management excludes items impacting comparability between periods as it believes these items are not necessarily reflective of the ongoing operations of the Company. Lamb Weston presents this measure because the Company believes it provides a means to evaluate the performance of the Company on an ongoing basis using the same measure frequently used by the Company's management

and assists in providing a meaningful comparison between periods. Any analysis of non-GAAP financial measures should be done only in conjunction with results presented in accordance with GAAP. This non-GAAP measure is not intended to be a substitute for GAAP financial measures and should not be used as such.

- (3) Adjusted EBITDA includes EBITDA from consolidated joint ventures.
- (4) Lamb Weston holds equity interests in three potato processing joint ventures, including 49.99% of Lamb Weston BSW, LLC and 50% of Lamb-Weston/RDO Frozen and Lamb-Weston/Meijer v.o.f. Lamb Weston consolidates the financial statements of Lamb Weston BSW, LLC and accounts for its ownership in the other joint ventures under the equity method of accounting.
- (5) Pro forma Adjusted EBITDA including unconsolidated joint ventures includes a full year of stand-alone public company costs.
